WALTON CORKWOOD

The rich colors and textures of natural corkwood are now available in a dramatic new patented wall system created by designer Don Walton that provides coverage of walls of any dimension without revealing panel joints. Select bark from the Cork Oak tree is imported from Portugal, handcrafted at the Walton studio, and assembled in a subtle mosaic pattern on large modular panels. Walton Corkwood will withstand wear and abuse without damage to its appearance, and the full one-fourth inch thickness of the natural corkwood provides outstanding acoustical qualities. Excellent for a wide range of commercial and residential applications.

OUR LAMPS ARE NOT FOR SALE AT MACY'S, OR GIMBEL'S, OR NEIMAN MARCUS, OR JORDAN MARSH, OR ZAYRES, OR DISCOUNT- LAND, OR ANY OTHER RETAIL STORE.

Because we know that a contract furnisher is not the same as a retail store and we think his lamps shouldn't be either.

That's the whole idea behind Florida Lamp's Contract Division. Our only business is making lamps to specification and in volume.

We're one of the nation's largest contract lamp, custom lighting fixture, and replacement lampshade manufacturers, serving such clients as Hilton, Holiday Inns, Marriott, Ramada, Sheraton, the U.S. State Department, large hospitals, apartment houses, etc...all through leading contract designers and furnishers all over the world.

These clients, and their custom furnishers/specifiers demand and will accept nothing but the best. The best materials. The best workmanship. The best service. The best lamps. And the best price. They get them all from Florida Lamp.

If you don't recognize our name, we're glad!

Frankly, we don't want to be the best known lamp manufacturer in America. We're not the same old sources of supply that everyone else uses, so you won't get the same old lamps. Our lamps are unique. We have many fresh new designs, some excitingly innovative new concepts, and a wide variety of coordinated styles. We can even design and manufacture lamps exclusively for you and your budget.

Want to learn more? Just fill in and mail the coupon below. We'll send you a full color mini-catalog that shows you the kind of lamps you can't get at Macy's, or Gimbel's, etc., etc.
